Asthma Expressed through Art.

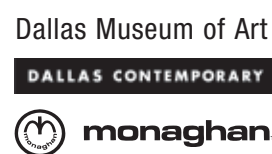

Fulfilling your potential as an artist, an athlete or just in life is much easier when your asthma is under control. Baylor's Rules of Two® lets you know when you need to ask for more help controlling your asthma.

Consider the Rules of Two®:

- Do you have asthma symptoms or use a "quick-relief inhaler" more than Two times a week?
- Do you awaken at night with asthma symptoms more than Two times a month?
- Do you refill your "quick-relief inhaler" more than Two times a year?
- Does your peak flow drop more than Two times 10 (20%), when experiencing asthma symptoms?

If you answer "yes" to any of these questions, consider that your asthma symptoms could be managed more effectively. For more information or an appointment, please contact us at [1.800.4BAYLOR](tel:18004BAYLOR) or visit, BaylorHealth.com.

Special Thanks —
