

A growing Emergency Department for a growing community.

Baylor Medical Center at Garland is undertaking a \$10.5 million expansion of our Emergency Department, to give Garland and the surrounding communities an expanded, improved and streamlined facility. We're increasing the number of treatment rooms, expanding waiting areas and providing more services to make the department more efficient.

Beginning Tuesday, April 21, the Baylor Garland Emergency Department entrance will be moved to the medical center's west entrance off of Walter Reed Boulevard while construction is underway. Patients and visitors are asked to enter there and register at the desk in the main lobby. In the fall of 2009, the Emergency Department entrance will be moved back to the east side of the medical center.

At the Baylor Garland Emergency Department, we're working hard to remain what we've been for years: the pulse of our community.

For a physician referral or for more information on the Baylor Medical Center at Garland Emergency Department, call **1.800.4BAYLOR** or watch a video about our expansion online at BaylorHealth.com/garland.
